www.secomafence.com

Dear Customers,

Due to Governor Inslee's Executive Order for Washington State, we are currently not providing sales calls in person. We can still give you an estimate though. All we need is your address and a birds-eye view drawing of what you would like done including style and height. This gives us the information we need to know like how many ends, corners, and gates needed. (See example below)

With your address, we can use online tools to confirm the footage so we can get you an accurate quote. Once, we receive this information we will assign it to a salesman and they will follow up with you as soon as they can.

Due to the current state of things, we are short-staffed and our salesmen are still catching up with prior estimates. We ask for your patience at this time while we work through everything going on.

Thank you and have a great day.

Secoma Fence Staff
